

Hi

My name is Daisy and my mum runs the Murray Arms Hotel & Restaurant and she has made sure that the hotel is really dog friendly not like these places that say they are but really do not want you there.

Come and visit the place it is really cool, you are allowed to go into all the bedrooms, there is a brilliant large garden full of delightful smells, there is a lounge where, if it is cold, you can curl up in

front of the coal fire and you should also take a peek into reception as they really make a fuss of you in there!

When you get into your room it is not like other places where you are stuck in a corner, you get your own welcome pack which even has some treats (I made her do this)!

There are loads of walks around the area but if you don't want to hop back into the car then you can go on a really great walk straight out the back of the hotel which takes you into the Galloway Forest where you can run wild.

The staff here really do make a fuss of you and are great at sorting out "doggy bags" from the restaurant – last week I helped mum finish off a fillet steak – I prefer it cooked blue but you can't always be too fussy!

If you want to know more about the hotel or even the area email me at info@murrayarmshotel.co.uk and let us know when you are coming and maybe we can meet up for a wee play.
